

The ping pong schdeuler  
PingMe

## Summary

PingMe is a mobile application that schedules matches of ping pong with your friends and allows you to record, track win / losses and follow leaderboards.

## What it does

- Enables a player to find someone to play with
- Play a match
- Record the win / loss
- View a leaderboard and compare your progress to others

## What's Covered in this proposal?

- 1) User flows
- 2) Wireframes
- 3) Visual Design

First Time User Experience

Wireframes

Notes:  
 Tap "Play" to initiate request for a match.  
 Items with the "Play" action indicate the player is available.  
 Tap the hamburger to show profile stats and ping pong rules.

Splash

Welcome to PingMe

Notes:  
 On return use the callsign is used with the welcome message.  
 "Welcome to PingMe, Maverick."

Leaderboard

Callsign	Record	
Maverick	29/8	You
Iceman	26/12	<input type="button" value="Play"/>
Goose	21/13	<input type="button" value="Play"/>
Viper	19/15	
Jester	16/20	
Cougar	8/22	<input type="button" value="Play"/>
Wolfman	5/23	
Slider	3/23	<input type="button" value="Play"/>
Stinger	3/25	

Play Request

Requesting a match

**Maverick**

vs

**Iceman**

Waiting on a response from challenger ...

Match

Who won?  
 (Tap a name)

**Maverick**

or

**Iceman**

Notes:  
 On failure to create a match (timeout, user denied request, connectivity issue) the user is taken back to the leaderboard screen and shown a notification with the error.

On successful match, the user selects the winner and taps "End Match" to close out the match, record the score and take the user back to the leaderboard.

First Time Use

Let's get started.  
 What should I call you?

**Maverick**

keyboard

Notes:  
 Once the user taps "Next" they are taken to the Leaderboard.  
 This could be an opportunity to have a quick walkthrough of the key areas and workings of the application.

Popup Element

**Hello Maverick**  
 You are ranked #1. You have won 29 games but lost 8. Awesome!

Ping Pong Rules

Notes:  
 This is a popup element that displays itself over the leaderboard when triggered via hamburger.

Tapping "Ping Pong Rules" takes the user to a rules screen.

The use of natural language here is intentional.

Invite Notification

Maverick has requested a PingMe match with you.

Notes:  
 Both actions close the notification window.

By pressing "Accept" that status is sent to PingMe which then creates a match.

By pressing "Ignore" that status is sent to PingMe denying the request for a match.

Leaderboard

#	Callsign	Win / Loss	Availability
1	Maverick	29/8	You
2	Iceman	26/12	Play
3	Goose	21/13	Play
4	Viper	19/15	
5	Jester	16/20	
6	Cougar	8/22	Play
7	Wolfman	5/23	
8	Slider	3/23	Play
9	Stinger	3/25	
10	Merlin	1/8	
11	Hollywood	1/1	Play
12	Sundown	0/0	

Profile Popup

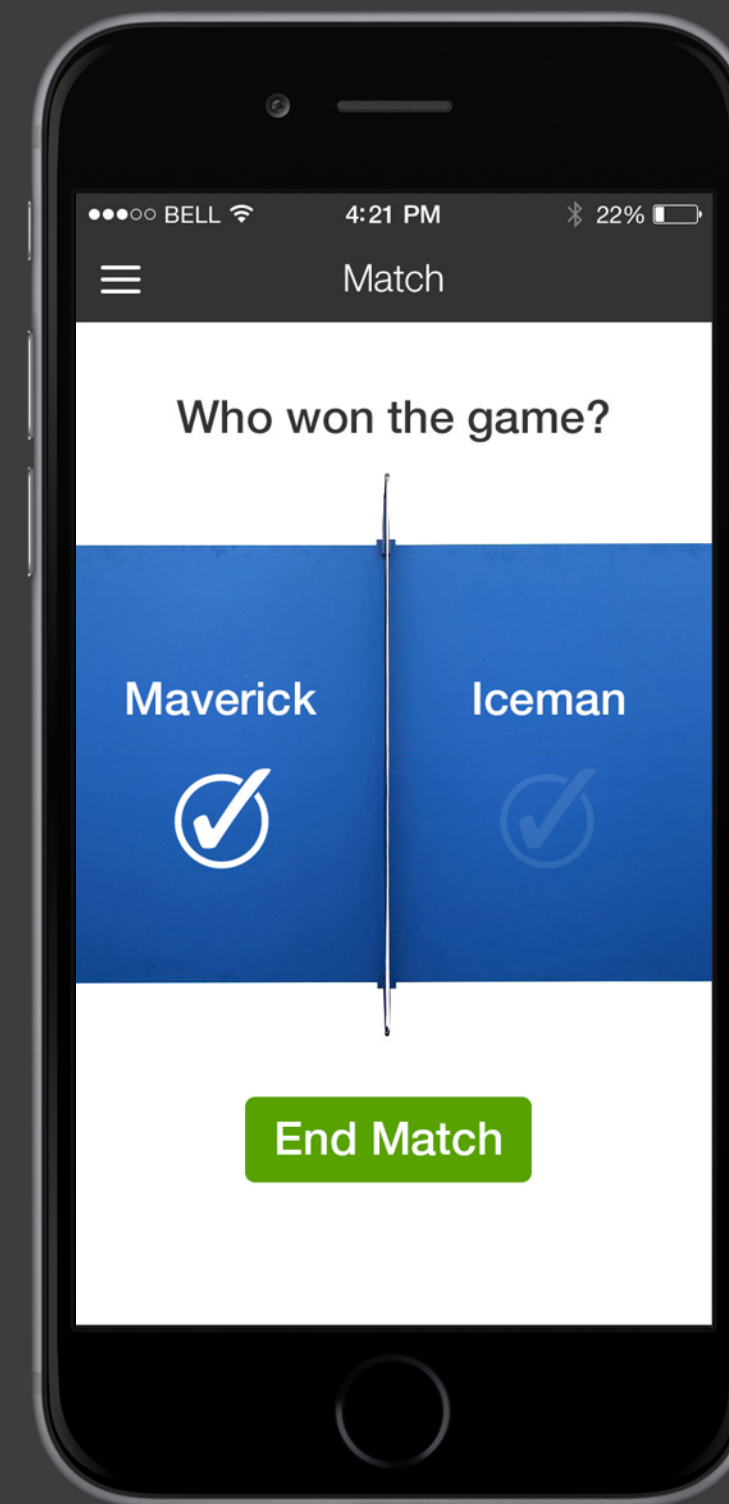

Hello Maverick

You are ranked #1. You have won 29 matches but lost 8. Awesome!

Rules of Ping Pong

3	Goose	21/13	Play
4	Viper	19/15	
5	Jester	16/20	
6	Cougar	8/22	Play
7	Wolfman	5/23	
8	Slider	3/23	Play
9	Stinger	3/25	
10	Merlin	1/8	
11	Hollywood	1/1	Play
12	Sundown	0/0	

Match

Opportunities for delight:

- 1) Personalized Photo or avatar
- 2) Display a personalized quote with callsign; e.g. "This is what I call a target rich environment."
- 3) Achievements
